

HEALTH AND SAFETY POLICY

Objectives

The aim of MSI is to preserve human life at all costs in the execution of any work related tasks. This applies to employees and contractors. All measures are therefore taken to maintain the well-being and safety of all personnel associated with MSI.

Responsibility

The directors have overall responsibility and authority for ensuring that the health and safety laws and guidelines of the various governing bodies are adhered to. Employees and contractors shall observe all decisions taken at various company safety meetings.

Management and Control

This policy is implemented through regular weekly safety discussions and project de-/briefing meetings. These meetings plan, organise and control how work is to be performed e.g. use of PPE, following of work instructions and procedures and the use of Risk Assessments.

Furthermore, regular weekly safety meetings encourage employees to take personal responsibility for their and others health and safety.
